

MOHAMMED ALZAHMAH

Data Management & Governance Officer | CDMP Certified

Riyadh, Saudi Arabia | +966 58 050 0220 | Mahommedalsh@gmail.com | mohammed.crd.co

PROFESSIONAL SUMMARY

CDMP-certified data management professional operating within a national Data Management Office. Cataloged all Shared Services Program systems on the National Data Catalog platform, documenting 10,000+ technical attributes and establishing a structured metadata foundation for data discovery and governance. Managed National Data Index (NDI) readiness activities across all data management domains and developed an executive dashboard to monitor DMO performance and support executive decision-making. Combines governance, metadata, and compliance expertise with a business intelligence background to translate technical requirements into clear, decision-ready insights.

CORE COMPETENCIES

National Data Catalog & Metadata | Business Glossary, KPIs & Measures | National Data Index (NDI) Compliance | Data Management Maturity | Open Data | Data Sharing & Integration | Data Governance Policies & Frameworks | Data Literacy & Awareness | Executive Dashboards & Data Storytelling | Stakeholder Management

PROFESSIONAL EXPERIENCE

Data Management Officer

Feb 2026 - Present

Data Management Office, Shared Services Program (SSP) | Riyadh, Saudi Arabia

- Cataloged all SSP systems on the National Data Catalog platform and documented 10,000+ technical attributes, establishing a structured metadata foundation for data discovery, definition, and governance.
- Developed business and technical metadata covering datasets, business attributes, business glossary, KPIs, and measures, creating a standardized vocabulary shared across business and technical teams.
- Managed National Data Index (NDI) readiness activities across all data management domains, tracking maturity and compliance indicators, reviewing departmental evidence, and driving improvement plans and corrective actions through to closure.
- Designed and built the executive Data Management Office dashboard covering operational excellence, data management maturity, and compliance, replacing manual status collection with a single executive view that accelerated reporting and decision-making.
- Managed open data activities end to end, partnering with departments to identify publishable datasets and prepare them in line with classification and publication requirements.
- Coordinated data sharing and integration requirements across internal departments and external entities, supporting the development and implementation of related plans, policies, templates, agreements, and procedures while monitoring alignment with data governance requirements.
- Designed and delivered data governance workshops and awareness programs that translated national data management requirements into practical guidance, raising data literacy and departmental ownership of data responsibilities.
- Coordinated the Data Governance and Management Committee cycle, from agendas and minutes to decisions and recommendations, and tracked resulting commitments and deadlines to closure with stakeholders across departments.
- Produced executive reports and presentations for leadership and committees, using data visualization, dashboards, and motion graphics to turn complex data management topics into clear, decision-ready material.

Business Intelligence Officer

Aug 2025 - Feb 2026

Takamol Holding - Qiwa Platform | Riyadh, Saudi Arabia

- Owned the definition and documentation of labor market KPIs and calculation logic, building a governed metric dictionary that became the single source of truth across business reports.
- Established data quality controls for platform data through validation, completeness, and reconciliation rules in SQL and Power Query, profiling source data and escalating defects to owners for remediation.
- Documented data sources, business definitions, transformation logic, and report lineage, creating the metadata baseline used for impact analysis and handover between teams.
- Delivered governed Power BI dashboards with automated daily refresh built on standardized definitions, reducing manual preparation effort and improving reporting consistency.

Process Improvement Assistant

Apr 2024 - Dec 2024

University of South Florida | Tampa, FL, United States

- Analyzed catalog and usage data to improve classification, organization, and discoverability of library information assets, recommending metadata and cataloging improvements that increased retrieval accuracy.

EDUCATION & CERTIFICATIONS

Bachelor of Science, Business Analytics and Information Systems - University of South Florida, Tampa, FL | GPA: 3.95 / 4.00

Dec 2024

Certified Data Management Professional (CDMP) - DAMA International

Jul 2026

Data Quality Training (Certificate of Attendance) - Saudi Data and AI Authority (SDAIA)

Aug 2026
